## Taki's MAD GREEK

*The Greeks first made wine around 1500 B.C. They took this unique art to all corners of the ancient world and about 600 B. C. to the land of Gaul (France).*

*Although we can no longer talk with Socrates or Plato, or see a play by Sophocles, we can still sip a glass of Greek wine and be a part of this wonderful tradition of pleasure as we return to the delightful glory that was, and still is, Hellas (Greece).*
